Spare time:

- The afternoon and the evening;
- Hobbies;
- How many hours of domestic work;

THE AFTERNOON AND THE EVENING

We start saying that Trieste is a city that doesn't offer much space for the teenagers. The school that we attend, the ITC (the Commercial Technical Institute) "Gian Rinaldo Carli", is very demanding and, in the afternoon, we study a lot; so we don't have much spare time. However, in the spare time, we go out with our friends and go round Trieste. The favourite places with young people are: Torri d'Europa, Viale XX Settembre, Piazza della Borsa and Barcola. In the summer teenagers go to Barcola, in particular to "Topolini" and "California" where we make friends and where we dive. In the winter, we usually go to "Torri d'Europa", where there are many clothes shops, electronics shops (like Mediaworld) and a very big place for eating. Besides, we can go to the cinema or to the amusement arcade. In the evening, we go to the most popular places in Trieste: Ariston, Hip-Hop, Cibo Matto and Twister. In these places we dance and we make friends.

HOBBIES

During the week all of us play some sports. The most widely practised are: soccer, basketball, swimming and judo.

Another hobby is listening to music. Our favourite kinds of music are: dance, rock, hip-hop and heavy metal.

A lot of teenagers spend most of their time on the computer for playing and surfing the net; we use the Internet a lot; we use MSN that is a chat.

Another form of entertainment is the cinema. In Trieste there are many cinemas, for example: Ambasciatori, Nazionale and the Multisala of Torri d'Europa. The highest attendance is on Tuesday because there is a special discount and at the weekend because we have more spare time. The kinds of movies that we like are: action, adventure and comedy.

DOMESTIC WORK

The domestic work occupies some time of our afternoon. Usually a student, to have good marks, studies about two hours a day. On the Internet there are many sites to make the domestic work easier, like studenti.it.
